Replication proof (B): accessible originals vs public proxies, standardized over common sample
House prices / rents
corr = 0.995 (n=100)
Accessible (original)
Public proxy
CRE prices (BIS proxy)
corr = 0.967 (n=100)
CRE lending standards (SLOOS proxy)
corr = 0.997 (n=96)
Mortgage debt / GDP
corr = 1.000 (n=100)
